NINETY-FOUR YEARS OLD

Mrs. Jane Ball Quietly Celebrating Her Birthday Today—Nearing the Century Mark.

Today Mrs. Jane Ball, widow of Mr. Kemp Ball, is celebrating her ninety-fourth birthday at the residence of her daughter, Mrs. Mollie Mitchell, of West Second street.

Mrs. Ball was born April 17th, 1820, in Lewis County, and at the age of 19 she came to Maysville and has ever since made her home in this city.

The children living are Mrs. Mollie Mitchell of this city and Mr. William Ball of Huntington, W. Va. Besides being called mother she feels very proud of being called grandmother and great-grandmother by a number of children.

Mrs. Ball's mind is very good, although she has lost her eyesight during the last two years. She is sociable and pleasant and well preserved considering her age.

Her daughter, Mrs. Mitchell, does all in her power to make life pleasant and agreeable for her, and makes it her special duty to look after her welfare and leaves no wish of hers unsatisfied. May she live long and happy and remain in good health to celebrate her hundredth birthday anniversary is the wish of her many relatives and friends.

"THE POOR LITTLE RICH GIRL"

Subject of Eloquent Discourse at the Central Presbyterian Church Last Night.

A large and attentive audience was present last night to hear Rev. R. L. Benn, the pastor of the church, discuss the modern problem play, "The Poor Little Rich Girl." In his gift for keen analysis and logical solution of social and ethical problems Rev. Benn leaves his hearers satisfied that prevalent wrongs would be righted were his solutions adopted.

After a vivid recital of the story, replete both with humor and pathos, depicting unnatural conditions as they exist today he elaborated its truths, first in the "social bee" as representing the craze for social recognition, requiring some one as it does, to go into the "harem" and "keep his nose to the grindstone" in order to meet the demands and furnish the necessary coin.

He showed further, drawing from the illustrations of the play, how society absorbs its devotees to the exclusion of natural ties and thus wrecks life of happiness by robbing it of its sweetness. The term, "they say," so common in current gossip, was represented in the play; "they," are elusive, evasive, uncertain presence whom nobody recognizes when met.

Then the pathos of multitudes of children, not in Africa or China, but in America, who have father and mother, yet are orphans in their bereavement of parental love and care. The home, he considers the greatest problem of the present day.

The illustration used in closing went to the hearts of his audience and made them believe the home instinct to be transcendent in man.

Preliminary to the lecture, Miss Martha Green Sharp pleased the audience with a solo and Miss Ria Ross and Ruth Willett with a duet.

Mr. Calvert Early had a \$150 horse to die a few days ago.

A gentleman recently spoke admiringly to The Democrat of a tenant who had rented one of his houses for a period of twenty-three years, and in that time had paid him over \$10,000. The house and lot cost originally \$4,500. The reason more men do not own their own homes is because they have not the nerve to shoulder the burden of indebtedness, whereas that very burden would be the making of a man who has the right sort of stuff in him. And if he hasn't the right sort of stuff, he might as well fail trying to pay for a home as to pay rent all of his life.—Cynthiana Democrat.

FRUIT TREES

Will Be Planted Along Beautiful National Road.

Columbus, Ohio.—Johnny Appleseed's successor is the State of Ohio.

Fruit trees of all kinds will be planted along the new National road from the Pennsylvania line to the Indiana line, under the direction of the State Highway Department, as fast as that road is improved, State Highway Commissioner James R. Marker announced.

This is one feature in a general scheme of beautification of this road. Mr. Marker said that the kind of trees to be planted at different places depends on the nature of the country through which the road passes. Where it runs straight for many miles tall shade trees probably will be used to make a vista. Where the road is winding fruit trees will be planted profusely.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

BLUFFING HUERTA

Uncle Sam Permits Wholesale Murder In Mexico But Demands Apology For Lack of Naval Courtesy.

Washington, April 14.—President Wilson today ordered practically the entire Atlantic fleet to Mexican waters to force a public salute to the stars and stripes from the Huerta government as an apology for the arrest of American marines at Tampico last Thursday.

No ultimatum has been issued, that is, no specific time has been set within which the Huerta government must comply, but the Naval demonstration has been ordered as concrete evidence of the fixed determination of the United States to back up Rear Admiral Mayo's demand for a salute. Up to tonight General Huerta had not made satisfactory responses to that demand.

"Future developments depend upon Huerta himself" was the way a high administration official close to the President summarized the situation.

WEEKLY SPORT LETTER.

(By C. H. Zuber.)

Cincinnati, April 15, 1914.

With a majority of the teams in the two major leagues started on their way in the 1914 fight for the pennant, baseball enthusiasts all over the land will now have their box score and their percentage table regularly on their daily menu. The opening games of yesterday carry no significance with them, further than to emphasize the fact that baseball promises to be more popular than ever this year. Here in Cincinnati the followers of the game have been worked to an extraordinary pitch of enthusiasm over the methods that have been pursued in assembling and developing the talent that is to comprise the Reds this year. No claims are made for the team, so far as position is concerned; but those who have seen the boys perform so far unhesitatingly pronounce the brand of baseball offered to be of higher class than any shown by a local aggregation in recent years.

The only question about the team is its mechanical strength; intellectually and in the matter of leadership the Reds of 1914 measure up with any aggregation that has represented Cincinnati on the diamond in the past twenty years. No team in the National League of fers more opportunities for study than the Reds of this season. The many changes that have been made in the line-up add much interest to the general performances of the team this year. The engagement of Herzog as manager and short-stop; the advent of Bert Niehoff at third; Herb Moran in right field, Gonzales and Von Kolnitz behind the bat, the string of new pitchers, including Earl Yingling and Jack Rowan, and the several new infielders and outfielders who are trying for utility jobs, add much to the zest which usually accompanies the study of the early work of a team. These youngsters will be used as much as possible in the early games of the season so that Manager Herzog may get a correct line on them and not turn any admit who later may develop into stars.

So the patrons of the early games will have the opportunity of seeing many youngsters in action— youngsters who have come up as stars from other leagues, and who have demonstrated their right to thorough try-outs before their status finally is fixed. The Reds' first two series of games will be with teams that the wise men have picked as possible pennant winners. Just at present Manager Herzog and his crew are entertaining the Chicago Cubs, who present a somewhat different aspect than when they played here last fall. Following Hank O'Day's aggregation the Pirates, led by Fred Clarke, will come to town, they being the first Sunday attraction of the season, scheduled for a Sabbath encounter on April 19, and again on May 3, the St. Louis team, also with a changed man, having the intervening Sunday—April 26. The Pirates, since last seen here, have relieved St. Louis of Ed. Konetchy, Mike Mowrey and Pitcher Bob Harmon, and have given the Cards in exchange Hans Miller, Dolan, Chief Wilson and a pair of pitchers. The Pirates also have developed an outfielder by the name of Kelly and several battery-men, so that they may cut more ice than expected.

Fat cattle are beginning to move and in Montgomery some have been sold at 7 1/2 and 7 3/4c.

LESS FOR SCHOOLS

Than for Good Roads—State Collects Big Sum Under Half Mill Levy to Improve Highways.

Ohio as a State is now collecting more taxes for the building of good roads than for educating its youth in the public schools.

The amount paid into the State treasury by the counties in the recent semi-annual settlement was, road improvement, \$1,681,560.55; common schools, \$1,167,129.36. The total paid in for all purposes was \$3,848,690.91. The remainder is for university and sickening fund.

Because of the good roads levy of half a mill, only nine counties had balances due from the State in the settlement.

The objection to the cornet is that one must practice to learn to play it.

WOMAN SWALLOWED HUNDREDS OF HAIRPINS.

New York.—Having swallowed hundreds of hairpins within the last two years, Mrs. Alice Bischoff died Sunday night in Bellevue Hospital. Today an autopsy is in progress so doctors may learn how it was possible for her to live so long with hairpins in her stomach. The woman who was forty-three years old, was committed to the Matteawan Asylum for the Criminal Insane early in 1912. At once she began to swallow every hairpin she could get. Five operations have been necessary in the two years to relieve her of her strange food, the last one proving fatal. She died of shock.

BRUTALLY ASSULTED

Pearl Norris 16-Year-Old Bath County Girl Attacked By Negro and White Man and Left Unconscious.

Sharpsburg, April 14.—Pearl Norris, the 16-year-old daughter of Steven Norris, a farmer of the county, while walking to town tonight from the farm of J. C. Spratt, with whose family she is staying, to meet her sister, was brutally assaulted by an unknown negro and a white man, her clothes being partly torn from her body, and she robbed of her purse containing small change.

The girl was left unconscious by the two men, but after a time gained her senses, and called for help. As the assault had taken place but a few hundred feet from the city limits, aid was quickly procured, many of the people living in the immediate vicinity coming to her assistance.

It is not known just how long the girl remained unconscious, but when assistance arrived no trace of the ruffians could be found. V. G. Mullikin, of Lexington, was instantly called, and it is expected that, with his bloodhounds, Kings and Rube, the two men who performed the deed will be run down, as all precautions were taken to keep the scent clear.

Miss Norris, who at present is residing on the farm of J. C. Spratt, expecting a visit from her younger sister, was coming to the city limits to meet her and accompany her back to the farm, when the assault was made. Public feeling against the ruffians has been aroused to high pitch.

Miss Norris, when attacked, was so badly frightened that she could not describe the men, except that one was a negro and the other a white man. The deed was done about 6 o'clock this evening.

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sanative Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

A Grateful Atlantic Coast Woman.

HODGON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO., (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

NOVEL EXHIBITS

Of Surgeons' Art Feature Big Congress in New York.

New York.—Discussion of papers on gastric and duodenal ulcer occupied the attention of the foreign and American surgeons attending the fourth congress of the International Surgical Association.

Among the many instruments exhibited at the convention was a man sewing machine, attached to a clamp. This is used in stitching incisions made in the tissues of the stomach and intestine. Another exhibit which is of most interest to the foreign visitors was a piece of mechanism in the shape of an artificial hand and arm. The artificial hand opens and closes at will; they have a viselike grip, and when one is taught to use the artificial member he can write easily, pick up small objects, such as coins, from the floor; manipulate knife and fork and execute dozens of other necessary tasks but with trifling inconvenience.

HE KNEW.

A Washingtonian, who was touring the Shenandoah Valley, stopped his motorcar in the road one day and asked an aged darkey who was painfully protesting in the opposite direction whether he knew where Mr. Simpkins lived. "Yessuh," was the reply. "He live heah in do valley." "Do you know where his house is?" The aged negro chuckled. "Deed I do, boss," he said. "I only wish I had as many dollars as I knows where dat house is."—Lippincott's.

FARM AND STOCK NOTES.

Farmers and fruit growers in this section say the freezes last week did not seriously hurt the fruit crop and young clover. The fruit trees as a rule were not out in bloom. What was in bloom was killed. The young clover that was up withstood the freeze, but that which was just sprouted and in the curl was likely killed, as the ground was frozen hard.

Slake half a bushel of unslaked lime with boiling water, keeping it covered during the process. Strain it and add a peck of salt, dissolved in warm water; three pounds of ground rice put in boiling water and boiled to a thin paste; half a pound of Spanish whiting and a pound of clear glue, dissolved in warm water. Mix these well together and let the mixture stand for several days. Keep the wash thus prepared in a kettle or portable furnace, and when used put it on as hot as possible with painters' or whitewash brushes.

THE BUSINESS MEN OF TODAY

are fully aware of the value of good dressing as a business asset. They regard well made, perfect fitting attire as much of an essential as the attractive line of a well kept store. The only question is who is the tailor who can make them the most satisfactory garments? There can be no question of doubt if you place your order with us. Remember this is the only store in this section where you can buy Ed. V. Price's made to measure clothes. See the new trousers we are showing for \$10 to \$12, they are superior. Remember we repair all our dry clean work free of charge in a workmanlike manner.
